MAYOR'S INAUGURAL ADDRESS

To the Members of the City Council:

Madam and Gentlemen,—You are the elected representatives of the people of Kingston to conduct the affairs of the City in their interests, and as such I welcome you to this Council board. Many of you, having previously served, know procedure and to those of you, elected for the first time, let me encourage you in that the haze of the first few weeks will soon gradually disappear and you will enjoy giving of your best for the City of Kingston.

We are honoured in having with us Alderman Delahaye, the first lady member of the Council of Kingston, and I would bespeak for her the same consideration as accorded other Aldermen.

There are in Kingston numerous organizations with their main objective being directed towards the betterment of the community as a whole. These deserve the commendation and gratitude of the citizens. They are all anxious to assist this Council in celebrating Kingston's One Hundredth Anniversary in 1938, for which purpose a strong Committee should be appointed without delay.

Thomas Kirkpatrick was elected Kingston's first Mayor in 1838, hence the centenary to be celebrated this year. Your present Mayor is the seventieth individual to hold this office. May I suggest that the Centenary Committee consider the official opening of Fort Henry and the Thousand Island International Bridge as major items in the programme. In this connection citizens generally will be pleased to note this Council's approval of the proposed scheme for a National Park at the Canadian entrance to the new Thousand Island Bridge.

Interest in the Chamber of Commerce should be revived this year so that more tourists will visit Kingston and spend some time with us here. The tourist industry is one of great magnitude and with added attractions and easier approach we should show a large increase for 1938 and each succeeding year. An official tourist bureau with trained guides could be established in conjunction with the Chamber of Commerce, Historical Society and others interested.

During the past two weeks government engineers have inspected the harbour regarding increased accommodation for boats. Kingston does need better accommodation for water traffic.

The ever-growing menace of accidents due in part to the increased use of motor cars calls for constant observation of traffic rules and regulations. If drivers of vehicles will realize the need for obeying the rules, show courtesy towards others and be alert at all times, accidents will be materially reduced and good tempers will not be ruined. The Traffic and Safety Committee has an important duty to perform here. If feasible, might I suggest a blinker light at Division and Princess Sts., if it is decided that any light is needed there.

The Fire and Light Department must continue to operate, be efficiently managed and its equipment highly serviceable to insure the proper protection from fire hazards to keep fire losses at a minimum.

The Board of Works always has its problems to solve and I am sure with a good Committee the programme for the year will be efficiently and economically performed.

The Parks Committee has an important duty to perform in the operation and maintenance of the various parks and Tourist Camp, with their beaches, grounds and buildings. It is gratifying to note that due to efficient management some revenue is obtained from operations at Lake Ontario Park.

The Property and Markets Committee should continue to keep all buildings in a good state of repair and otherwise operate to give the people value for their money.

I am not familiar with the new Committee on Administration and Legislation but I hope its recommendations will be of such a nature that they will encourage patriotism and loyalty for the good and welfare of the City of Kingston.

The Committee on Finance and Accounts has to do with the handling of the taxpayers' money. While a considerable portion of expenditures is classed as uncontrollable we are charged to practise the utmost economy with efficiency to prevent reckless spending and to endeavour to reduce the tax rate rather than increase the obligations of an already overburdened taxpayer. I hope this will be accomplished this year.

I would ask each Committee to carefully consider its estimated expenditure for the year as early as possible so that there may be no delay in bringing down the Budget, an item which the people eagerly await.

While many of us have our own ideas as to who should pay relief costs, the fact is that we still have that problem to face and the City must pay its share out of current revenue. You will shortly appoint a Welfare Board which is responsible for the administration of Relief, and I believe you will appoint representative citizens who have the needs of the unemployed and those unfortunate citizens who require assistance at heart and who will act according to the dictates of their own consciences. Let it ever be remembered that these citizens give their services freely and it is only their desire to assist in the Welfare problem that actuates this service.

I am hopeful that the problem of revising assessment will be solved satisfactorily this year and that the Consolidation of the By-laws be also completed.

One of the things that tends to promote good citizenship is organized play for the children of a community; this statement is verified by anyone who examines the operations of Kiwanis Square over a period of years. I believe some effort should be made to continue playgrounds through the summer and to provide skating rinks for the winter.

During the year several Conventions will be held in Kingston. It is my belief that conventions help to bring our City to the forefront and should be encouraged to meet where every facility is available.

Many requests have come to me to review the question of daylight saving. Mothers with small children going to school believe that the period should be shortened. This will be dealt with in due course.

Each Alderman will be given a copy of the Rules of Order. These govern Council and if we know the contents of this little green book and carry out the provisions contained therein we should have little difficulty in doing what is right, fair, reasonable and according to facts.

May I wish you a Happy New Year.

Special reference should be made at this time to the following items that have bearing in arriving at the 1938 Budget. The City Treasurer reports a surplus of $20,705.97 for the year 1937, after making full provision for all expenditures applicable to the year 1937.

In accordance with Resolution of City Council passed at their meeting December 20th, 1937, the Asset Account for Street Rails in the amount of $5,500 is to be written off against this surplus, leaving a balance of $15,205.97 available to reduce the tax levy to meet the estimated 1938 expenditures.

The previously referred to surplus of $20,705.97 is accounted for by the increase in Revenue for the year 1937 of approximately $11,700, and a decrease in the expenditure of

Social Welfare of slightly more than $9,000.00, other increases and decreases.

We submit herewith a schedule showing the principal factors which permitted a decrease of 2 mills in the General Tax Rate this year.

The principal factors which permitted a decrease in the Tax Rate for 1938 of 2 Mills are as follows:—

REVENUE 1938

Rents —

With the exception of two items, viz. "City Hall" and "Market Space Rental" no comment is necessary.

Rental Revenue from the City Hall during 1937 exceeded the estimate for 1937 and that of 1938 by nearly $350.00. This excess is largely accounted for by Ontario and Memorial Halls having been used for Provincial Election purposes during 1937 and cannot be considered in the Estimate for 1938.

In previous years all monies received for Market Space Rental were considered a revenue in the year in which they were received, notwithstanding that rentals so paid were in advance for the first half of the following year. In order to bring such Revenue within the Calendar year period for which we are reporting this adjustment has been made.

Licenses —

The increase in license revenue of slightly more than $1100 over that received in 1937 is due most particularly to a number of the licenses being issued for the full year of 1938, whereas in 1937 these same licenses were only for the period of from April 1st to December 31st, a nine months period.

Other Revenue —

The main items of difference between the actual receipts of 1937 and anticipated revenue for 1938, a decrease of approximately $9,500, are explained in the following:—

Interest on taxes show actual receipts for 1937 in excess of those estimated by nearly $4,900. This is accounted for somewhat by charging the penalties and interest due at the time when payments were made on account of taxes; previously, the penalties and interest were not charged until the final payment of the tax was made; Secondly, a more rigid tax collection policy was adopted in 1937, and thirdly, a betterment in economic conditions enabled some who were delinquent to make payment on their tax arrears. In 1938 it is estimated that revenue from this source will not be as large as it was in 1937, but we have estimated it at $2,000 higher than that estimate made for 1937.

The anticipated surplus from the Water Department is estimated at nearly $4,100 more than the City received during 1937.

It is not anticipated that we will receive any revenue or reductions from the Public Utilities Commission on account of street lighting or consumption of electricity during 1938, from which source a revenue of slightly more than $7,200 was accounted for in 1937.

Miscellaneous Revenue —

A Revenue of nearly $1700 was received in 1937, whereas in 1938 only $500 is anticipated. The rather unusual amount received under this heading is largely accounted for by analyzing and crediting the City with revenues earned by the way of Board of Works deposits, some of which dated back to more than twenty years. The balance of this amount is largely made up of lands owned by the City and sold during 1937.

Taxes, 1938 —

Notwithstanding that the Assessment for 1938 shows an increase over that of 1937 of slightly less than $200,000, a reduction in the mill rate from that of 1937 of 45 mills to that of 1938 of 43 mills will mean a decrease in taxes levied to close to $30,000.

The provision for exemptions, remissions, uncollectible and refunds has been reduced from $65,260 in 1937 to $55,000 in 1938. This reduction is determined from a careful analysis made by the City Treasurer and the City Auditor and the reserve now on the books of the City amounting to nearly $75,000.

Special Assessments —

This year the anticipated revenue for collection and disposal of garbage is estimated at 70/100 of a mill. For many years previous this assessment has either been one mill, three-quarters or one-half of a mill, but your Committee in determining the expenditure for this purpose this year is carrying out the policy as recommended by the Committee of 1937 to assess for the expenditure in the year in which it occurs, thus the revenue from this source is shown at the mill rate previously referred to, which is determined by the estimated expenditure for garbage and refuse collection for the year 1938.

In accordance with By-Law No. 29, 1937, no assessment is made for Statute Labor.

The remaining "Special Assessments" are usual.

EXPENDITURES 1938

We have attempted to make the Budget more understandable this year by showing the estimated as well as the actual expenditure for 1937, together with the estimated expenditure for 1938, believing that comparisons can more readily be made.

Before commenting on the various Committees' estimated expenditures the following "Uncontrollable" and "Controllable" expenditures are illustrated:—

Uncontrollable Expenditure —

It will be noted from the foregoing figures that the present City Council really controls only 23.5% of the gross estimated expenditures of the City for the year 1938.

The "Uncontrollable" figure of $725,204.82 or more than 76% of the gross estimated expenditure, is made up of provision for the liquidation of the debenture debt of the City as at January 1st, 1938, the estimated requirements by outside Boards elected by the citizens or by appointment, and statutory or previously arranged amounts over all of which the present City Council has little or no jurisdiction.

Your Committee does, however, wish to refer to the estimated expenditures for Administration of Justice. It will be noted that in 1937 the estimated expenditure for this purpose was $15,500, whereas the actual expenditure for 1937 was $19,564.50, more than $4,000 in excess of that estimated. This was largely due to the trial of Crossley, an inmate of the Portsmouth Penitentiary. The City of Kingston took up the unjustness of this charge to the City of Kingston with both the Governments of the Dominion and of the Province of Ontario, but received very little satisfaction. The amount set up in the Budget for 1938 of $17,500 is a guess at its best, as the only definite knowledge that the City has is a percentage of the expenditure actually incurred.

In the estimates of 1937 an amount of $12,500 was included as the Estimate net cost of Direct Relief absorbed by the City. Due to the sale of the Elevator property to James Richardson & Sons the Council of 1937 provided $20,000 of the funds so received to enable the City to pay as a current expenditure during 1937 the whole of the City's share of Direct Relief for 1937. In previous years this expense had been funded and the cost spread over future years. The Budget for 1938 provides an amount of $29,000, which is the estimate of the City's share of Direct Relief for 1938, this being the first year that the full expense for this cost has been budgeted for.

Controllable Expenditure —

Finance and Accounts — The Street lighting expense as estimated for 1938 is based on the number of lights actually in use as at Dec. 31st, 1937, as follows:—

102 lights at $12.00	$ 1,224.00
268 lights at $35.00	9,380.00
258 lights at $46.00	11,868.00
TOTAL	$22,472.00

Any additions or deductions to the above number of lights would be pro rata. The lighting of the streets of the City of Kingston is supplied through the local Public Utilities Commission under the supervision of the Ontario Electric Hydro Power Commission, and the cost is determined by the Ontario Hydro Electric Power Commission. If there is an increase in costs during the year 1938 the payment has to be made to the Local Commission, and in the case of a decrease in the cost the City receives a rebate.

The actual administrative expense such as salaries, wages, etc., has been reduced in the estimated expenditure for 1938 by approximately $7,400, which is made up of anticipated savings in nearly every object of expenditure budgeted for in 1937.

There are, however, two extraordinary items, the one for the completion of the re-assessment of the City of Kingston, at an estimated cost of $5,850.00, and your Committee strongly recommends the approval of this work being completed. The other unusual expenditure is that of $2,000 for the City's celebration of its Centennial.

Board of Works — The increase in the Board of Works of $1,490.00 over the actual expenditure for 1937 is largely made up of charging the whole salary of the Assistant Engineer, half of which $1100.00) was charged to Finance and Accounts in 1937, his services being used to that extent on Assessment work for 1937.

Garbage Collection —Provided for by Special Assessment. Included in the expenditure is an amount for the depreciation of the mechanized equipment of the Department, and for proposed incinerator units.

Fire and Light — An increase of about $2600 to provide for the changing of the wheels and other work on the Ahren-Fox pumper at an estimated cost of $2,000 and other required equipment.

City Property and Markets — The increase of $1,925.00 is made necessary for repair work on nearly all of the city owned properties. Included in this amount is the new furnace installed in the Public Library at a cost of $956.00.

Parks — The increase of approximately $1250.00 is to complete the work started last Fall in Macdonald Park and the Bathing House.

Social Welfare — The increase of approximately $900.00 is largely accounted for in the increased clerical assistance in this Department for a full year term, whereas in 1937 this additional assistance was only for a part of the year, and in possible additional expense for deportation purposes.

Traffic and Safety — No comment.

Board of Health — No comment.

TABLE OF DOCUMENTS

In accordance with motion by Ald. Stansbury seconded by Ald. Smith, passed at the regular meeting of the City Council held on April 4th, 1938, the following letter was read from His Worship Mayor Stewart:

Kingston, April 19th, 1938.

To the Municipal Council of the City of Kingston:

Gentlemen,—The request made by the Council to me to table the Minutes of the Board of Police Commissioners was directed to me as the representative of the ratepayers of the City. I am really the representative of all citizens of Kingston, but my duties lie within the limits imposed upon me by law. You have, nevertheless, in my judgment asked me to go beyond those limits, in demanding from me what the law does not require of me, and what is opposed to what I consider my duty to be. Although I am the presiding officer of the Council, and at the same time a member of the Board of Police Commissioners, the offices are not identical, and the two bodies have separate and distinct jurisdiction and authority, neither of them being subject to the control of the other. That must be borne in mind in considering how far I should go in complying with the wishes expressed by the resolution of Council in this instance.

I laid your request before the Board, and while recognizing that in respect to police administration the City Council has the right to fix the number comprising the police force over and above a minimum number fixed by the Board, and also to pass upon the estimates of the Board, the Municipal

Act places the sole duty of police administration upon the Commissioners, whose actions are not subject to review or interference by the City Council. Whether that is a wise provision or not is quite another matter. I am merely pointing out what I understand is the legal position of the Board in relation to the City Council. The Police Commissioners, having considered the request made to me by the Council, decided that as no good purpose could be served by complying with it, and it would not be in the best interests of the public to do so, I should decline to table the Minutes as requested for the information of the Council. I believe that in acting upon that decision I am doing what any representative of the citizens of Kingston should do if he had a proper appreciation of his duty and if he desired police administration to be carried on effectively and within the letter and spirit of the law as it now stands.

All of the Commissioners, serving as they do gratuitously and conscientiously, have as much concern for the welfare and protection of this City as any member of this Council, and while they are desirous of meriting and retaining the goodwill of every worthy citizen in their difficult duty, they cannot share their responsibility or authority with this Council.

Let me add, however, that if in any matter within the competence of this Council it may at any time become necessary to give any information which has come to me as Commissioner, and which I consider will not adversely affect the proper functioning of the Police Force or be inadvisable on broad grounds of public policy, I will be glad to convey such information to you as occasion may arise.

(Signed)

H. A. STEWART, Mayor.

ADMINISTRATION AND LEGISLATION.

Ald. Curtis presented report No. 54 from the Committee on Administration and Legislation as follows:

Kingston, June 7th, 1938.

To the Mayor and Members of the City Council:

Gentlemen,—The Committee on Administration and Legislation begs leave to report and recommend as follows:

1. That the Revised By-law relating to sewers and drains be approved by Council.

2. That the request made by the Kingston Coach Company Limited, and pursuant to Clause 12 of the Agreement dated 13th November, 1936, between the Corporation and the Company, to make certain changes as set out in the following be granted:

Outer Station

The present routing is as follows: Leave Bagot and Princess Sts., Princess to Montreal St., and along Montreal St. direct to Outer Station. Returning along Montreal St. to Queen St. to Bagot and Princess Sts.

The suggested change is to keep the same routing **TO** the Outer Station, but on the **RETURN** trip to leave Outer Station along Montreal St. to Stephen St. to Division St. to Princess St. to Montreal St. to Queen St. to Bagot St. to Princess St.

The above suggested change would cover Regiopolis College and vicinity, not covered at the present time. We would like to try the above routing for a period of sixty days, and if at the end of that period receipts warrant a continuance of this proposed routing, we request the new routing be permanent.

Albert-Stuart-Princess

The present routing is as follows: Market Square to Princess St. to Barrie St. to Pine St. to Alfred St. to Queen's Crescent to Albert St. to Stuart St. to Barrie St. to King St. to Market Square.

The suggested routing is: Market Square to Princess St. to Barrie St. to Pine St. to Alfred St. to Princess St. to Albert St. to Stuart St. to Barrie St. to King St. to Market Square.

The only change we suggest making on this route is to cover Albert St. rather than Alfred St. on the south side of Princess St., as Alfred St. is covered by the Portsmouth route.

Earl-Victoria

The present routing is as follows: Market Square to Earl St. to Victoria St. to Princess St. to Alfred St. to Pine St. to Division St. to Princess St. to Market Square.

The suggested routing is: Market Square to Earl St. to Victoria St. to Princess St. to City Limits (Bath Road), turn here or to Drayton Avenue to Concession St. to Princess St. and come directly down Princess St. to the Market Square.

This suggested routing would cover an area not heretofore covered, that is the district from Victoria St. to the Bath Road. We have had numerous requests from citizens in this area to extend this service to the City Limits, and with the new routing of the Outer Station covering Division St. from Stephen St. to Princess St., taking care of the route formerly followed by the Earl-Victoria in this particular area.

3. That the request made by the Kingston Coach Company, Limited, pursuant to the said Clause 12 for permission to extend their bus service by operating a sightseeing tour on the following route at a charge of sixty cents per person be granted:

From the corner of Montreal and Princess Sts. (on Montreal Street), leaving the corner of Montreal Street, west on Princess St. to Clergy St. to West St. to Court St. to Union St. along Union St. to Portsmouth and Lake Ontario Park. A stop of 10 minutes to enable passengers to view the Park. From the Park through Portsmouth along King St. to Clarence St. to Ontario St. and directly to R. M. C. Grounds, and from there to Fort Henry. Returning via Ontario St. to Place d'Armes St. to Ordnance St. to Rideau St. to Charles St. to Montreal St. and to our starting point at Montreal and Princess Streets.

4. That the request made by the Kingston Coach Company, Limited, pursuant to the said Clause 12 for permission to extend their bus service by operating a tour known as a "Nowhere" tour at a charge of fifty cents per person be granted.

The Nowhere Tours would leave from the starting point at Montreal and Princess Streets and would cover a round trip of approximately 40 miles throughout the surrounding countryside.

Respectfully submitted,

(Signed)
C. A. CURTIS,
J. F. ROWLAND,
HUGH C. NICKLE,
D. M. CHOWN,
A. E. STANSBURY.

Moved by Ald. Curtis, seconded by Ald. Nickle (4), that the report of the Committee on Administration and Legislation be received and adopted.—Carried on the following division: For (15), Against (0).

The Bus service as now in operation by the Kingston City Coach Co. Limited is as follows:

Portsmouth Route

Leave Market Square, King Street to Barrie, to Union, to Livingston Avenue, to King, to Portsmouth.

Return: Portsmouth to Livingston Avenue, to Union, to Alfred, to Princess, to King Street, and Market Square.

Earl-Victoria Street Belt

Market Square to Earl St., to Victoria St. to Princess St. to City Limits (Bath Road), turn here or to Drayton Avenue to Concession St. to Princess St., and come directly down Princess St. to the Market Square.

Albert-Stuart-Princess Street Belt

Return: Outer Station along Montreal St. to Stephen St. to Division St. to Princess St. to Montreal St. to Queen St. to Bagot St. to Princess St.

From the corner of Montreal and Princess St. (on Montreal St.), leaving the corner of Montreal St. west on Princess to Clergy St. to West St. to Court St. to Union St. along Union St. to Portsmouth and Lake Ontario Park. A stop of 10 minutes to enable passengers to view the Park. From the Park through Portsmouth along King St. to Clarence St. to Ontario St. and directly to R. M. C. Grounds, and from there to Fort Henry. Returning via Ontario St. to Place d'Armes St. to Ordnance St. to Rideau St. to Charles St. to Montreal St. and to the starting point at Montreal and Princess Sts.

3. Resolved that the conduct of the inquiry be delegated to the Committee on Finance and Accounts and that it be authorized to take such action as it may deem necessary and advisable.
